Introduction

As we all know, the requirements regarding selling/buying/producing products and Sustainability become more and more important.

That is why TRIMIT has extended the functionality regarding Sustainability in Business Central and added extra features for the **Certificates** you can get for products or can get from vendors.

These **TRIMIT Sustainability** features have been released as separate App, that can be downloaded from AppSource (for Cloud) or from MyTRIMIT (for on-premises)

You can only use the **TRIMIT Sustainability** App, if you also have the **Sustainability** App of Business Central installed, as well as the general **TRIMIT** App.

The **TRIMIT Sustainability 25.0.2.33** App is the first addition based on requests of partners/customer. Any remarks/suggestions can be added in *my.trimit.com* as a [Service Request](#).

You can also still use the functionality in the **TRIMIT** App regarding Sustainability by adding VarDim Types to a Master or Vendor for Sustainability as described in the [White Paper – TRIMIT Sustainability](#). But for now, it will have NO connection to the **TRIMIT Sustainability** App functionality regarding the Certificates, and it will not affect each other.

The audience for this document is the Consultant or very skilled User. It will only describe the TRIMIT fields/functionality and not the standard Business Central fields/functionality. Be aware of not changing settings and parameters in a live database without consulting the implementing partner.

The functionality described is the functionality as of **TRIMIT 26.1 for Business Central W1 BC28.X**.

The pictures in this White Paper are based on the demo data for **TRIMIT 26.1**, which is based on Microsoft Dynamics 365 Business Central 2026Release Wave 1 in the demo company **CRONUS TRIMIT W1 Ltd.** (based on CRONUS International Ltd. of Microsoft Dynamics 365 Business Central).

Components

TRIMIT Sustainability contains the following objects:

The tables 6037730 *trm Certificate*

Special Permission Set

TRM-SUSTAINABILITY is necessary for users if they want to use the functionality of the TRIMIT Sustainability App.

Installation

This chapter contains information about the installation of the App for Sustainability.

TRIMIT Sustainability App

You can get the TRIMIT Sustainability App via <https://marketplace.microsoft.com/> to be published/installed in a Cloud installation.

You can also download the App via [MyTRIMIT](#) for on-premises installation or in a docker: Select the App with the right major TRIMIT release (25.2 or 26.1).

You also need to have the Business Central **Sustainability** App installed when you want to use the TRIMIT Sustainability App as well:

Extension Management

Insights

Sustainability Certificates

The Activity Group **Sustainability Certificates** will only be shown if you also installed the **TRIMIT Sustainability App** and contains the following Cues:

- ➔ **Due Certificates**

In this Cue you see a list of the Scope Certificates for with the **Valid to Date** is before the Work Date + 1 Day.

- ➔ **Open Transaction Certificates**

In this Cue you see a list of the Transaction Certificates that are not Approved yet.

- ➔ **Due Transaction Certificates**

In this Cue you see a list of the Transaction Certificates that are not Approved yet and for which the **Deadline Transaction Certificate** is before the Work Date + 1 Day.

Sustainability Setup

You can find it via **Search Sustainability Setup**.

An extra FastTab **Certificates** needs to be filled:

Sustainability Setup

Sustainability Account Categories Sustainability Journal Template Emission Fees More options

Certificates

Scope Certificate Nos. CERT_SCOPE Follow-Up Certificates Dateformula 1M

Transaction Certificate Nos. CERT_TRANS

Scope Certificate Nos.

No. Series for the **Scope Certificates**.

These are the Certificates you want to acquire.

Transaction Certificate Nos.

No. Series for the **Transaction Certificates**.

These are the Certificates related to a Purchase Receipt or Sales Shipment.

Follow-up Certificates Dateformula

A Dateformula can be entered, to determine if a **Scope Certificate** might become invalid in this period based on the **Valid to Date** of a Scope Certificate. In that case, it will be shown **red** in the list of Scope Certificates, so you are aware that you should require a new Scope Certificate.

Scope Certificate

You can find it via **Search Scope Certificate**.

But we also added it to the Role Center **TRIMIT Small Business**, where you can find it via **Product Design, Scope Certificates**.

FactBox **Related Picture** can be added via **Personalize** to add the logo of the Certificate.

FactBox **Drag & Drop** will add the document/picture you drop into the **Attachments**.

I.e., a pdf-file of the actual Certificate or the application form.

FactBox **Certificate Relation** will show a list of the Masters that are related to this Scope Certificate via **Related Relations**.

No.

Internal number based on the **Scope Certificate Nos.** in the Sustainability Setup.

External No.

The number that is on the Certificate.

Name

Name for this Certificate.

Standard and Area

You can determine how you want to 'group' your Certificates for filtering or statistics.

Valid From Date

From which Date is this Certificate Valid.

Valid To Date

Until which Date is this Certificate Valid.

The Record will be shown **red** if the **Work Date** + the [Follow-up Certificates Dataformula](#) is bigger as the **Valid To Date** and the **Valid To Date** is not empty.

Show on Digital Product Passport

Not implemented yet.

Audit Date/Audit Score/Issuer/Audit Report Reference

Who is auditing this Certificate and when?

Create Transaction Certificate

For every Purchase Receipt or Purchase Receipt Line of an Item you can create a Transaction Certificate.

You can determine at which level you want to create the Transaction Certificates:

No
Per Receipt
Per Receipt Line

Note

You can only get **Transaction Certificates** for Purchase, and not for Production.
In that case, it should be **Transaction Certificates** related to the Components (Raw Materials) that you Purchase.

Deadline Transaction Certificate

Until which Date is the Transaction Certificate valid?

This is a **Dateformula**.

Balance Quantity

Balance of the Quantities of Items based on the Purchase Receipt and the Sales Shipment in the [Certificate Entries](#), where Purchase is positive and Sales is negative.

</

Show/Hide Comments

By clicking on it, you can *Hide* the comments in the bottom of the page.
By clicking on it again, you can *Show* the comments in the bottom of the page again.

Relations

Via *Related*, *Relations*, you need to set up for which Products and/or Vendors the Scope Certificate is meant to be.

Certificate Relation									
Relation 1	Relation 1 No.	Relation 1 Name	Variant Filter 1	Relation 2	Relation 2 No.	Relation 2 Name	Related to All	Product Type	
→ Master	2210	Poppy Blazer	—	Vendor	2300	Oriental Production Services	☐	GARMENT	
Master	2110	Mia Blouse	—	Vendor	2300	Oriental Production Services	☐	GARMENT	
Master	2320	Zoe Dress	—	None			☐	GARMENT	

Relation 1, Relation 1 No., Relation 1 Name

Relation 1 determines for which product the Scope Certificate is applicable.

You can choose between the following four options:

None	It is not applicable for products, but for Vendors (Relation 2).
Item	It is applicable for a specific Item.
Master	It is applicable for a specific Master.
Group Master	It is applicable for all the Masters that are connected to a specific Group Master.

Depending on **Relation 1**, you need to fill in the appropriate **Relation 1 No.**, after which the **Relation 1 Name** will be shown.

Variant Filter 1

This field is only applicable for **Relation 1 = Master**.

In that case, you can set a Filter on **Variant 1** of the Master of **Relation 1 No.**

So, as an example, for the Colors of a Master, you can select for which Colors it is applicable:

VarDim Options					
Mark	Value	Description	Description 2	Picture	
→ ☐	20	Royal Blue			
☐	25	Navy			
☐	30	Yellow			
☐	35	Orange			
☐	60	Forest Green			
☐	70	Red			

Relation 2, Relation 2 No., Relation 2 Name

Relation 2 determines for which Vendor the Scope Certificate is applicable.

You can choose between the following two options:

None	It is not applicable for a specific Vendor.
Vendor	It is applicable for a specific Vendor.

Depending on **Relation 2**, you need to fill in the appropriate **Relation 2 No.**, after which the **Relation 2 Name** will be shown.

Related to All

In case **Relation 1** and **Relation 2** are set to *None*, you can determine that the **Scope Certificate** is applicable for all Products and all Vendors.

Product Type

You can group your products into **Product Types**.

This can be used for filtering or statistics.

Transaction Certificates

This will show the **Transaction Certificates** that were created based on **Posted Receipts**.

See chapter [Transaction Certificates](#) for the details.

Certificate Entries

This will show the **Posted Receipt Lines** and **Posted Shipment Lines** for all the Transaction Certificates belonging to the current Scope Certificate.

Certificate Transaction Entry														
Entry No.	Item No. †	Description	Posting Date †	Entry Type	Document Type	Document No.	Document Line No.	Source Type	Country/Region Code	Source No.	Document No. 2	Location Code	Quantity	Certificate Set Id
1	21103002	Mia Blouse	2/20/2026	Purchase	Purchase Receipt	107039	12231	Vendor	GB	2300	0200003	BLUE	10	1
11	21103002	Mia Blouse	2/20/2026	Sale	Sales Shipment	102121	12231	Customer	GB	2000	0100001	BLUE	-4	1
24	21103002	Mia Blouse	2/20/2026	Sale	Sales Shipment	102122	12231	Customer	GB	2010	0100002	BLUE	-8	3
2	21103003	Mia Blouse	2/20/2026	Purchase	Purchase Receipt	107039	12409	Vendor	GB	2300	0200003	BLUE	20	1
12	21103003	Mia Blouse	2/20/2026	Sale	Sales Shipment	102121	12409	Customer	GB	2000	0100001	BLUE	-8	1
3	21103004	Mia Blouse	2/20/2026	Purchase	Purchase Receipt	107039	12587	Vendor	GB	2300	0200003	BLUE	20	1
13	21103004	Mia Blouse	2/20/2026	Sale	Sales Shipment	102121	12587	Customer	GB	2000	0100001	BLUE	-8	1
4	21103005	Mia Blouse	2/20/2026	Purchase	Purchase Receipt	107039	12765	Vendor	GB	2300	0200003	BLUE	10	1

The red columns have been added via *Personalize*.

Entry No.

Unique number of the entry.

Item No.

The Item for which it is applicable.

Description

Description of the Item

Posting Date

The Posting Date of the **Posted Receipt** or the **Posted Shipment**.

Entry Type

This will be *Purchase* for Posted Receipt and *Sales* for Posted Shipment.

Document Type

At this point, only the *Purchase Receipt* or *Sales Shipment* are applicable.

Document No.

The number of the *Purchase Receipt* or *Sales Shipment*.

Document Line No.

The **Line No.** of the **Document No.** (*Purchase Receipt* or the *Sales Shipment*).

Source Type

Vendor (for *Purchase Receipt*) or *Customer* (for *Sales Shipment*).

Country/Region Code

Country/Region Code or the **Source No.**

Source No.

The **No.** of the *Vendor* (for *Purchase Receipt*) or *Customer* (for *Sales Shipment*).

Document No. 2

The **Order No.** from the *Purchase Receipt* or *Sales Shipment*.

Location Code

The **Location Code** on which the **Item No.** was received/shipped.

Quantity

The **Quantity** that was received (positive) or shipped (negative).

Certificate Set Id

Unique internal number for the combination of **Scope Certificates** that might apply.

Actions

Show Item will open the Item Card of the **Item** of the Entry you are standing on.

Show Source will open the Vendor or Customer Card of the **Source No.** of the Entry you are standing on.

Show Certificate Set will show the **Scope Certificates** that apply to the Entry you are standing on.

Transaction No.

This will be created based on the **Transaction Certificate Nos.** in the Sustainability Setup and the **Create Transaction Certificate** in the Scope Certificate.

External No.

You can enter the **External No.** of the Certificate.

Name

The **Name** of the Scope Certificate it belongs to.

Date

The **Date** (Work Date) on which the Transaction Certificate was created.

Deadline Transaction Certificate

Calculated Date based on the **Date** of the Transaction Certificate and the **Deadline Transaction Certificate** in the Scope Certificate.

You can change this Date.

Document Type

This will be set to **Posted Receipt** and cannot be entered; it is related to the Document Type of the Item Ledger Entry it belongs to.

Document No.

The number of the *Posted Receipt*.

Source Type / Source No.

You can add them via *Personalize*.

They are *Vendor* and the number of the *Vendor* of the *Posted Receipt*.

TC Quantity

You can enter the Quantity that you requested for this Transaction Certificate.

Inbound Quantity

The total Quantity that has been posted as a Receipt.

Approved, Approved Date, Approved By

You can set a checkmark in **Approve**, which will automatically fill in the **Approve Date** and the **Approved By**, when you get the approval for this Transaction Certificate.

Actions

Transaction Certificate (TC)

<

Approve

Instead of entering a checkmark in the field **Approved** on the Transaction No., you can also use this Action to set this checkmark.

But now you will get a message:

Do you want to approve this transaction certificate?

Yes

No

Remove Approve

Instead of removing a checkmark in the field **Approved** on the Transaction No., you can also use this Action to remove this checkmark.

But now you will get a message:

Do you want to remove approval from this transaction certificate?

Yes

No

Merge Selected

After you have selected several Transaction Certificates, you can merge them under the first Transaction Certificate.

You will get a message based on the selected Transaction Certificates that you want to merge.

Are you sure you want to merge these 2 into one transaction Certificate

Yes No

Suppose, you would Merge
